## At Atlantic Edge Dive Center!

Imagine...you could be exploring the underwater realm; creatures and wrecks, gorgeous dive sites and breathtaking seascapes that you'd never know existed. Experience the thrill of diving that will bring you closer to family and friends, introduce you to a unique world of adventure, and create memories to last a lifetime.

Atlantic Edge Dive Center offers the PADI Open Water Diver course, the most recognized and respected entry level certification worldwide. By learning to dive with Atlantic Edge, you will have gained all of the knowledge, skills, and experience necessary to safely enjoy diving. Furthermore, it will prepare you for a continuing education of diving, and open the door to all of the upper-level certifications and PADI specialties. Beginning at age ten\* children can earn their **Junior Diver** certification, making our Learn to Dive Class a great family activity!

**What will I do?** The Learn to Dive Class has two phases for completion. First, you will complete a classroom and pool dives. Here you will develop your dive knowledge and skills and build your confidence in the water. Prior to the classroom session, you must complete the knowledge reviews from your Open Water textbook, as well as view the PADI OW dvd. Next, you complete four certification dives at Dutch Springs Lake. Here, you'll apply the skills you've learned in an open water environment.
